

PICES CCCC
MODEL Task Team Meeting Agenda
(H. Wei & T. Wainwright, co-Chairs)

Sunday, October 28, 2007

09:00 – 12:30

1. Welcome and introduction of members. (*T. Wainwright and H. Wei*)
2. Review of agenda and inclusion of new items as needed. (*T. Wainwright and H. Wei*)
3. Review of MODEL accomplishments after PICES XV.
 - a. FRA international workshop on “*Collaborative studies for ecosystem variation and climate change in the North Pacific*” held in Tokyo, November 2006 (*S. Ito*)
 - b. NEMURO model information included in Eur-OCEANS project (*M. Kishi*)
 - c. Tri-national Sardine Forum held in Vancouver, BC, November 2006 (*J. Schweigert*)
 - d. Status of NOAA project “Software framework for integrating marine ecosystem models” (*T. Wainwright*)
 - e. Progress in coupling NEMURO and NEMURO.FISH models with higher resolution ocean circulation models under CREST program (*Y. Yamanaka*) and within ROMS (*F. Werner*)
 - f. Brief discussion/review/preview of workshops and theme sessions at PICES XVI
S3–“Towards ecosystem-based management: Recent developments and successes in multi-species modeling” (*J. Schweigert*)
S9–“Operational forecasts of oceans and ecosystems” (*S. Ito and F. Werner*)
W6–“Climate scenarios for ecosystem modeling” (*Y. Yamanaka*)
4. Discussion of PICES Future Integrated Scientific Program (FISP) (*T. Wainwright and H. Wei*)
5. Planning for 2008 and beyond (*H. Wei and T. Wainwright*)
 - a. PICES XVII (Oct. 23 - Nov. 2, 2008, Dalian) - proposals for Topic Sessions & Symposia. The PICES XVII Theme is “Beyond observations to achieving understanding and forecasting in a changing North Pacific: Forward to the FUTURE.”
 - i) Workshop on “Assessing and Expressing Uncertainty in Marine Ecosystem Forecasts: moving MODELS forward to the FUTURE.” (*T. Wainwright*)
 - b. Proposals for intersessional workshops and future MODEL TT scientific work
 - i) Sea ice modeling (*M. Kishi*)
 - ii) “Bottom Up Ecosystem Based Management Modelling using NEMURO and NEMURO.SAN” (BUMBAM.NEMURO?) (*M. Kishi*)
 - iii) Opportunities for collaborative work under US GLOBEC’s pan regional synthesis phase or U.S. CAMEO program (*F. Werner*)
 - c. CREAMS/PICES Summer School (Hakodate, 2008) (*M. Kishi*)
 - d. Proposal for new “PICES Working Group on Marine Ecosystem Model Inter-Comparisons” (*B. Megrey*)
 - e. PICES XVIII (Oct. 2009, Korea) (*T. Wainwright and H. Wei*)
6. Requests for travel to future meetings
7. Other new business
8. Rotation of membership
9. Announcements

Revised 2007.10.22

10. Adjournment
